

FAUNISTIC RECORDS FROM THE CZECH REPUBLIC – 108

Lepidoptera:

Tineidae

Niditinea truncicolella (Tengström, 1848). Moravia bor. or.: Beskydy Mts, Staré Hamry, Velký Kobylík Mt. (6476), 750 m a.s.l., 8.vi.1996, 3 ♂♂, 1 ♀, J. Sitek lgt., det. et coll. All specimens found in tunnels made by *Camponotus* sp. (Formicidae) in an old, dead, standing fir. Known from northern Europe, Russia and mountains of Central Europe and Spain (Petersen 1965, Zagulajev 1981). The nearest locality is known in the Západné Tatry Mts in Slovakia (Laštůvka et al. 1992). New species for the Czech Republic.

Alucitidae

Alucita desmodactyla Zeller, 1847. Moravia bor. or.: Vsetínské vrchy Hills, Nový Hrozenkov – Lušová, hill near Peciválka (6674-75), 720 m a.s.l., 23.-24.viii.1997, 1 ♂, at light, T. Kuras lgt. et coll., J. Sitek det.; Vsetínské vrchy Hills, Huslenky – Losovy (6674), 550 m a.s.l., 31.viii.1999, 1 ♂, at light, J. Sitek lgt., det. et coll. Known from southern and south-eastern parts of Central Europe (Buszko 1977, 1996). From Bohemia already published by Sterneck & Zimmermann (1933) but no recent data are known (J. Liška, pers. comm.). New species for Moravia.

Pterophoridae

Calyciphora nephelodactyla (Eversmann, 1844). Moravia bor. or.: Beskydy Mts, Baška - Hodoňovice (6376), 380 m a.s.l., 29.vi.1997, 1 ♀, at light, J. Sitek lgt., det. et coll.; Vsetínské vrchy Hills, Nový Hrozenkov – Lušová, hill near Peciválka (6674-75), 720 m a.s.l., 4.vii.1997, 1 ♀, among meadow vegetation, T. Kuras lgt. et coll., J. Sitek det. Known from hills of southern and (partly) Central Europe, Russia and Asia Minor (Bigot & Picard 1996, Gielis 1996, Razowski 1988, Schwarz 1958). Bigot & Picard (1996) erroneously recorded the species from the Czech Republic (Z. Laštůvka, pers. comm.). The nearest localities are known from the Malá Fatra Mts in Slovakia (Reiprich & Okáli 1989). New species for the Czech Republic.
