NEW FAUNISTIC RECORDS FROM THE CZECH REPUBLIC – 349

Diptera: Bombyliidae

Bombylisoma nigriceps (Loew, 1855). Moravia mer., Hodonín-Pánov (7168), 48°53'06"N, 17°08'12"E, former military training area, on flowers of *Thymus serpyllum*, 16.vi.2012, 1 ♀, 20.vi.2012, 2 ♂♂, 1 ♀, 5.vii.2012, 1 ♀, all A. Čelechovský leg., det. et coll. Palaearctic species (Evenhuis & Greathead 1999). Distribution: South and Central Europe (known from Bulgaria, France, Greece, Hungary, Italy, Poland, Romania, Russia, Spain, Ukraine), and Asia Minor (Zaytsev 1966, Greathead 2012). Also known from Slovakia (Čelechovský & Bosák 2009). A very rare species in Central Europe. New species for the Czech Republic.

Systoechus gradatus (Weidemann in Meigen, 1820). Moravia mer., Hodonín-Pánov (7168), 48°53'06"N, 17°08'12"E, former military training area, on flowers of *Thymus serpyllum* and in flight, 16.vi.2012, 1 ♀, 20.vi.2012, 2 ♂♂, 5 ♀♀, 5.vii.2012, 8 ♂♂, 10 ♀♀, all A. Čelechovský leg., det. et coll. Palaearctic species (Evenhuis & Greathead 1999). Distribution: Europe, North Africa, Asia Minor, East Palaearctic, in Europe known from Balearic Is., Bulgaria, Croatia, Finland, France (incl. Corsica), Greece, Hungary, Italy (incl. Sicily), Portugal, Romania, Russia, Spain and Switzerland (Zaytsev 1966, Greathead 2012). New species for the Czech Republic.

Lomatia lachesis Egger, 1859. Moravia mer., Hodonín-Pánov (7168), 48°53'06"N, 17°08'12"E, former military training area, on flowers of *Thymus serpyllum*, 16.vi.2012, 2 ♀♀, 20.vi.2012, 1 ♂, 6 ♀♀, all A. Čelechovský leg., det. et coll. Palaearctic species (Evenhuis & Greathead 1999). Distribution: South and Central Europe, North Africa and Asia Minor. In Europe known from Albania, Austria, Czech Republic, France, Greece, Hungary, Italy, Macedonia, Russia, Slovenia and Spain (Zaytsev 1966, Greathead 2012). Only older and sporadic records have been reported from southern Moravia (Landrock 1910, Bosák 1998). Confirmed occurrence in the Czech Republic.
