Ropalodontus baudueri Abeille de Perrin, 1874. Bohemia centr.: Lány env., Lánská obora game park (5849), 21.vi.–5.vii.2009, 5 spec., stem intercept trap, 20.vi.2010, 1 spec., 4.vii.2010, 2 spec., all by tapping *Fomes fomentarius* fruiting body, 14.vi.2019, 1 spec., 30.vi.2019, 2 spec., 18.vi.2021, 2 spec., all at UV light, all K. Rébl leg. et coll., J. Bezděk det.; Lány env., Lánská obora game park – Zakopané (5949), 3.vi.2019, 1 spec., at UV light, K. Rébl leg. et coll., P. Průdek det., J. Bezděk rev.; Sýkořice – Kovářův luh forest (5949), 30.v.2012, 1 spec., J. Januš (Kladno, Czech Republic) leg. et coll., J. Bezděk det. Moravia mer., Břeclav env., Kančí obora game park (7267), 12.iii.2016, 1 spec., L. Koloničný (Ostrava, Czech Republic) leg. et coll., P. Průdek det., J. Bezděk rev.

European species reported from Austria, Denmark, France, Germany, Greece, Hungary, Italy, Poland, Romania, southern part of European Russia, Slovakia and Ukraine (Królik & Ruta 2016, Królik 2020). *Ropalodontus baudueri* is a rare species associated with *F. fomentarius* (Reibnitz 1999, Rose 2012, Rose & Zagatti 2016). In Poland, it was recently collected together with *R. perforatus* (Gyllenhal, 1813) and *R. strandi* Lohse, 1969 on *F. fomentarius* growing on *Fagus sylvatica* (Królik & Ruta 2016). New species for the Czech Republic.

Ropalodontus strandi Lohse, 1969. Bohemia centr.: Lány (5849), 19.vii.1991, 1 ♂, K. Rébl leg., coll. J. Januš; Lány env., Lánská obora game park (5849), 29.vii.1991, 1 ♂, by tapping fruiting body *Fomes fomentarius*, K. Rébl leg. et coll., 30.iv.2005, 1 spec., J. Januš leg. et coll.; 21.vi.–5.vii.2009, 1 spec., stem intercept trap, 14.vi.2019, 1 spec., at UV light, both spec. K. Rébl leg. et coll.; Lány env., Lánská obora game park – Zakopané (5949), 3.vi.2019, 1 spec., 4.vi.2019, 1 ♂, both spec. at UV light, K. Rébl leg. et coll.; Sýkořice – Kovářův luh forest (5949), 30.v.2012, 1 spec., J. Januš leg., coll. Národní muzeum Praha. All specimens J. Bezděk det.

North Palaearctic species reported from Finland, Latvia, Norway, Romania, Russia (northern and central European parts, Siberia, Far East), Sweden, Ukraine (Królik 2020). *Ropalodontus strandi* is associated with *F. fomentarius* (Królik 1999, Królik & Ruta 2016). In Poland, it is often collected together with *R. perforatus* (Gyllenhal, 1813) (Królik & Ruta 2016). New species for the Czech Republic.

ACKNOWLEDGEMENTS. We are obliged to Jiří Januš (Kladno, Czech Republic) and Luboš Koloničný (Ostrava, Czech Republic) for the loan of Ciidae from their collections, and to Roman Królik (Kluczbork, Poland) for confirmation of the identity of *R. strandi*.

Figs 1–2. 1 – *Ropalodontus baudueri* Abeille de Perrin, 1874 from Lánská obora game park, male, body length 2.0 mm; 2 – *Ropalodontus strandi* Lohse, 1969 from Lánská obora game park, male, body length 1.7 mm. Photographs by J. Bezděk.

Obr. 1–2. 1 – *Ropalodontus baudueri* Abeille de Perrin, 1874 z Lánské obory, samec, délka těla 2,0 mm; 2 – *Ropalodontus strandi* Lohse, 1969 z Lánské obory, samec, délka těla 1,7 mm. Fotografie J. Bezděk.
